Make a meaningful difference

Because Lighthouse has a small Fundraising and Marketing team who facilitate the below opportunities, some options are exclusively available to Foundation Corporate Partners who contribute financially.

We have unique engagement opportunities which often involve our young people, carers and staff. They provide a meaningful insight into our programs and give our partners a memorable and impactful experience.

Our valuable partners have first priority and limited opportunities are available for prospective partners who must undertake a Lunch and Learn session, facilitated by Lighthouse staff.

Give your staff a rewarding and memorable volunteer experience that will have far reaching benefits long into the future.
